

July 14th, 2022

The Honourable Omar Alghabra, P.C., M.P.
Minister of Transport
Ottawa, ON K1A 0A6

Dear Minister Alghabra,

We are writing to express our support for CN's plans to build a new 47 km spur line to service the BHP Jansen Potash Mine in Saskatchewan.

BHP and CN have led various early activities related to the proposed Jansen CN Rail Spur including public open houses and landowner discussions to collect feedback on the proposed route to ensure it meets the necessary safety requirements, acknowledges stakeholder objectives, and achieves the least environmental impact.

The construction of the rail spur will provide hundreds of employment opportunities for our community throughout the construction of the spur and thereafter at the BHP Jansen Potash Mine.

Minister, we urge the Government to approve this important transportation project. The spur needs to be ready, at the earliest possible date, to meet the growing global demand for Canadian potash and bring our natural resources to international markets.

Sincerely,

Ashley Greenshields
Administrator
